

Southampton Parent Carer Forum

Parenting a child with SEND can be overwhelming and exhausting at times. We offer a range of different support options that can help you, whether your child has a diagnosis or if they are just showing signs of having an additional need.

Our Vision is for an accepting and empathetic wider community where the daily challenges faced by Parent Carers are recognised and understood, and there is a shared commitment to overcome them.

Coffee mornings and workshops with a range of professionals take place across the city in a range of venues and different days.

You tell us your views and experiences of local SEND services

We feed back the collective voice of parent carers in meetings across educations, health and social care sectors so that the challenges of our community are heard and understood.

We work to co-produce better services

Together, we can bring about positive changes for families.

Join our community of parent carers of children and young people (0-25yr) with special educational needs and disabilities (SEND) to have your say on local services and get support.

We also host a number of family events throughout the year. Check out our website for more information.
