

January 2026

Dear Parent/Carer,

Reading is perhaps the most important life-skill which we learn at school and last year we had great success with our online reading application called Reading Plus.

I would like to share with you that our pupils enjoyed reading almost a quarter of a million words on the platform last year!

To support your son/daughter with their reading, we welcome you helping them to access the Reading Plus site at home. The following instructions will give you access:

Log on to your computer, laptop, tablet or phone.

Then:

Type '**reading plus**' in the search engine

- Choose 'student login.'
- The site code is: rpcompasss (*remember it's 3 x's*)
- Add your child's name – first name and then the first letter of your surname: eg John Smith would be JohnS
- The password is: qwerty (*all lower case*)

This will then take your child to a familiar page where they will be able to access their reading texts.

If you need further help, please call school on 02380 215320 and a member of staff will call back to support you.
